# NOTEBOOK DESIGNS AND IDEAS

Online Clothing Store

This is a design of a clothing website's home page. Users can navigate through the menu using the links. The background will be a video that plays automatically.
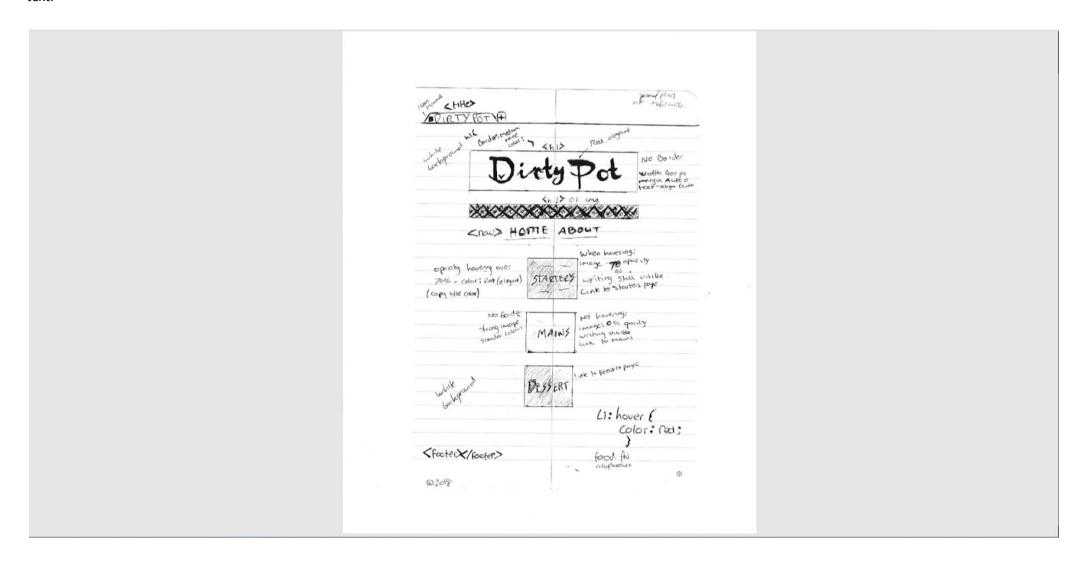

Sports Information Application

A rugby application that provides information on each team, fixtures and rankings in the six nations tournament. The design below would be the mobile version of the application.

Food / Recipe Blog

A food indulgence website focussed on high definition photos of meals with information on recipes. Each link on the home page navigates the user to a gallery of images and text.

Photography Portfolio

A portfolio website displaying an artists work with links to view previous clients, designs and for contact. The images in the background would have a turning animation.
